Support RE: J.K. Technologies Petition
Docket Numbers: 2001-9628 and 2001-9630

Dear Mr. Weinstein,

This petition has inadvertently come to my attention and I am firmly convinced that the contents therein support the concept of free enterprise in a global economy. Its concepts have a high level of technological merit and provide the consumer with a release from the burdens, which the various personal gain factions are attempting to impose on an American's rights to vehicle importation.

Do not continue to allow Ferrari of North America to pursue their quest, the denial of this petition for the 2001 Ferrari 360's and 550's, because it is in their best financial interests.

Ferrari of Italy, the manufacturer, has not opposed the JK Technologies Petition, and neither should we.

Sincerely,

BELTON WALL
